

Ford Romania Intern Program Internship Workplan

Project Name:	Ford systems usage to confirm and resolve constraints	Supervisor Name:	Cristian Jura
Department Name:	Production Purchasing	Supervisor CDSID:	cjura
Assignment Location:	Craiova	Supervisor Position#:	Manager
Project Description			

The internship is going to get knowledge about modern Purchasing systems and how these are linked with other systems in the Company (Engineering, logistics, etc)

The internship will get knowledge about the process of supplier Localization and of Capacity Constraints follow up process..

He will assist the Constraints Buyer in his role as interface with the supply base.

Measurable Objectives

- The internship will be expected to be able to demonstrate that they have learned how Purchasing systems work and how these are linked to other systems in the Company
- At the end of the program, the internship should be able to explain, giving a presentation, the Localization process, how the supply system works, what means a constraint and how the constraint is solved.
- At the end of the program the internship will be assessed on team work behavior, communication and accuracy of the task completed.

Expected Major Contributions

- Support the team in the day to day business;
- Come with “fresh eye” new ideas.

Expected Benefits to Intern

- Get knowledge of Purchasing systems and procedures used in automotive companies.
- Exposure to a wide variety of manufacturing and business related activities.
- Be a part of a Global team and of cross functional projects.

Intern Qualifications (schooling, work experience, major)

- Must be studying for Economics or Business related degree. Additional Engineering knowledge will be an advantage.
- Have a high level of English and computer skills including knowledge of Microsoft Office (Excel, Word and PowerPoint). MS Access will be an advantage.
